

Malaysian Oil and Gas Engineering Council (MOGEC) was founded in 1999 by six established design services engineering consultants serving the upstream oil and gas industry.

## **1.0 Objectives**

- 1.1 To provide a forum for discussion on issues of common interests.
- 1.2 To promote co-operation among members.
- 1.3 To promote the use and development of local resources in the oil, gas and petrochemical industries.
- 1.4 To collaborate with local research centers and institutions to stimulate skills development in Malaysia.
- 1.5 To promote the development of graduate engineers and professionals in the oil, gas and petrochemical industries.

The Association shall be a non-profit organization.

In furtherance of its objectives the Association may affiliate with any relevant Malaysian and international institution pursuing similar objectives.

## **2.0 Activities**

Since its inception, MOGEC has been active with organizing technical talks, an annual high-tea event, supporting conferences and the Industry Gala Dinner event. In its early years, the association played a key role within the PETRONAS driven cost reduction initiative – CORAL by active participation and representation of the engineering industry. Today it is actively supporting PETRONAS's vision for Malaysia to be a Regional Deepwater Services Center. MOGEC provides activities like forum, roundtable discussion, networking for members to discuss common issues. The MOGEC Council which meets monthly is elected at the AGM for the ensuing year.

## **3.0 Benefits**

It is an effective platform to promote the advancement of the oil and gas engineering profession. MOGEC is involved in activities to represent, promote and defend the interests of the industry to PETRONAS, Government, clients and business associates. Through MOGEC, members can be sure that their voice is heard and that people are aware of the value provided by the Engineering Consultants in the oil and gas industry.

## 4.0 The Requirements
